## What is *Oxford Medicine Online*?

- THE go-to website for full-text access to hundreds of high-quality, trusted Oxford University Press medical texts.
- An essential, one-stop resource providing quick access to authoritative information.
- A must-have for medical students, junior doctors, nurses, midwives, senior doctors and consultants – anyone needing authoritative information quickly.

The screenshot displays the Oxford Medicine Online website. At the top, there is a search bar and navigation tabs for 'Specialty', 'Career Stage', and 'Series'. Below this, a 'Welcome to Oxford Medicine Online' message is visible. The main content area features a 'FEATURED TITLE' section for 'Marsden's Book of Movement Disorders' by authors Ivan Donaldson, C. David Marsden, Susanne Schneider, Kallash Bhatia. A sidebar on the right contains an announcement for a new user experience for 2012 and a 'New Update' section dated April 16, 2012. At the bottom, a 'Most popular titles' section lists books such as 'ODL Type 2 Diabetes (2 ed.)', 'OSH A Resuscitation Room Guide', 'Oxford Handbook of Nutrition and Dietetics (2 ed.)', and 'Cardiovascular Computed Tomography'.

## Navigating from the Home Page

The Home Page allows the user to navigate to content quickly and intuitively. Search and Browse options are available on every page, as well as access to an Advanced Search option for more direct searching.

1 Browse by Specialty

2 Browse by Career Stage

3 Browse by Series

4 Use filters in the left panel to narrow your choices further

The screenshot shows the Oxford Medicine Online interface. At the top, there is a search bar and navigation tabs for 'Specialty', 'Career Stage', and 'Series'. Below these are three book covers: 'Oxford Textbook of Medicine', 'OSH Manual of Childhood Infections', and 'OAL Obstetric Anaesthesia for Developing Countries'. A left-hand navigation panel is visible, with a red circle '4' highlighting the 'Narrow your choices' section. Below the book covers, there is a search bar and a results summary: 'You are looking at 1-10 of 235 books'. At the bottom, there is a list of items, with the first item being 'Brain's Diseases of the Nervous System (12 ed.)' by Michael Donaghy (ed.), with a red circle '4' highlighting the 'Narrow your choices' section.

## Advanced Search

Advanced Search is available on every page and allows more powerful and complex searching of the full-text within *Oxford Medicine Online*.

- 1 Use the drop down menus to select values for your search criteria
- 2 Click *Add Row* and *Remove Row* to build the search query

### Advanced search

Search by entering a word or phrase in the search field. Add new row(s) to include additional words or phrases and refine your search further.

A screenshot of the advanced search interface. It shows a 'Search:' section with a dropdown menu set to 'Full Text' (highlighted with a red circle '1'). Below it is a table with one row containing another 'Full Text' dropdown and a 'Remove row' button (highlighted with a red circle '2'). At the bottom of the table is an 'Add row' button. Below the table are 'Clear' and 'Search' buttons.

# Working with Quick Search Results

When running a Quick Search or an Advanced Search, you will be presented with a search results page from which you can refine your results further, or save, print, email or share the results list. You can:

- 1 Change or remove filters
- 2 Change how many titles are list in the search result
- 3 Print, save, email, or bookmark search results
- 4 Change the number of results per page and the sorting options
- 5 Filter the results further, using options in the left panel
- 6 Search within results

The screenshot shows the Oxford Medicine Online search results interface. The page is titled 'Search Results' and displays a list of search results. The interface includes a navigation bar at the top with links for 'About', 'Subscriber Services', 'What's New', 'Contact Us', 'Take a Tour', 'FAQs', 'Help', 'Sign In', 'Not registered?', and 'Sign up'. The search bar is located at the top right, and the search results are displayed in a list format. The left sidebar contains a 'Narrow your choices' section with a list of specialties and their corresponding result counts. The main content area shows the search results, including the title, authors, and publication information for each result. The page is annotated with numbered callouts (1-6) indicating key features: 1. 'Clear All' button; 2. 'Items per page' and 'Sort by' options; 3. 'Print', 'Save', 'Email', and 'Bookmark' icons; 4. 'Download result of the search (.pdf)' button; 5. 'Narrow your choices' sidebar; 6. 'Search within results' input field.

# Navigating within full-text pages

- 1 Use the Table of Contents to quickly navigate the book
- 2 Download the chapter to PDF for offline reading
- 3 Print, save, cite, email or share (via social networks) the chapter
- 4 Carry out a search within the book
- 5 Find alternative ways to access the book

The screenshot shows the Oxford Medicine Online interface for the book "OSH Nuclear Cardiology" by Nikant Saharwal, Chee Yee-Loong, and Andrew Kellon. The interface includes a search bar at the top right, a navigation menu with "Specialty", "Career Stage", and "Series", and a "My Content" section. The main content area displays the book title, authors, and publication details. A "Download chapter (PDF)" button is visible. The interface also features a "Disclaimers" section and a "Table of Contents" section at the bottom left. The numbered callouts highlight the following features:

- 1: Table of Contents (Front matter)
- 2: Download chapter (PDF)
- 3: Print, save, cite, email or share (via social networks) the chapter
- 4: Search within the book
- 5: Find alternative ways to access the book

## Linking from course packs and reading lists

To add a chapter or a book to an online course pack or reading list, COPY and PASTE the DOI to the end of the standard URL prefix. Eg.  
10.1093/med/9780199569083.003.002

- 1 Students who click on this URL will be taken straight to this chapter/book
- 2 DOIs are unique and permanent so you don't need to worry about broken links

The screenshot shows the Oxford Medicine Online interface. At the top, there's a navigation bar with links like 'About', 'Subscriber Services', 'What's New', 'Contact Us', 'Take a Tour', 'FAQs', and 'Help'. Below this is a search bar with the text 'OXFORD MEDICINE ONLINE' and a search button. The main content area displays the book 'Oxford Textbook of Interventional Cardiology' edited by Simon Redwood, Nick Curzen, and Martyn Thomas. A red circle with the number '1' is placed over the publisher information. Below the book details, there's a section for 'The history of interventional cardiology' chapter by Kenneth Kent. A red circle with the number '2' is placed over the chapter title. The DOI for the chapter is 10.1093/med/9780199569083.003.002. A disclaimer is visible at the bottom left of the page.

# Sharing information with colleagues

You can share books, chapters and search results in a number of ways: printing, emailing, social bookmarking (e.g. on Twitter or Facebook), posting DOIs, and citing the source in your research.

- 1 At the book, chapter, and search/browse results page, you will have access to the toolbar
- 2 Roll a cursor over the bookmark tool to reveal a menu that will allow you to share the material
- 3 Use the DOI to link to online course packs, and share with colleagues

The screenshot displays the Oxford Medicine Online website. At the top, there is a navigation bar with links like 'About', 'Subscriber Services', 'What's New', 'Contact Us', 'Take a Tour', 'FAQs', 'Help', 'Sign in', 'Not registered?', and 'Sign up'. Below this is a search bar with the text 'OXFORD MEDICINE ONLINE' and a search button. A dropdown menu is open over the search bar, showing a 'Bookmark & Share' section with various social media and sharing options like 'netShoutout', '100zakladok', 'Zlinkme', 'A97abi', 'Adifni', 'Amazon', 'AOL Mail', 'Arto', 'Azadegi', 'Baidu', 'Bebo', 'BiggerPockets', 'Bit.ly', 'Blogger', 'Settings', and 'Privacy'. The main content area shows a search result for 'Oxford Handbook of Clinical Haematology' by Drew Provan, Charles R. James, and Charles A. Stangor. The page includes an abstract, bibliographic information, and options to 'Find in Library' or 'Buy this Work'. A 'Google Preview' button is also visible. Red circles with numbers 1, 2, and 3 are overlaid on the image to highlight the toolbar, the dropdown menu, and the DOI field, respectively.

# Downloading content

You can enlarge figures or download them to PowerPoint slides – perfect for presentations.

- 1 Click on View full-sized figure or Download figure as PowerPoint slide link.

The image then appears in jpg format or pre-loaded in a PowerPoint slide.

The screenshot shows the Oxford Medicine Online interface. At the top, there's a search bar and navigation links. The main content area displays the book 'Marsden's Book of Movement Disorders' by Ivan Donaldson, C. David Marsden, Susanne Schneider, and Kailash Bhatia. Below the book information, there's a 'Tics' article with a list of sub-topics: 1. Syncope (2014), 2. Gilles de la Tourette syndrome (194), and 3. Secondary tic syndromes (194). Under 'Secondary tic syndromes', there's a sub-link for 'Sympathetic (dysmetria) tic syndrome (194)'. A 'Historical background' section follows, containing text about the origins of tics and a reference to the 17th century. At the bottom of the page, there's a 'Download figure as PPT' link, which is highlighted with a red circle and the number 1.

FEATURED TITLE  
**Marsden's Book of Movement Disorders**  
Authors Ivan Donaldson, C. David Marsden, Susanne Schneider, Kailash Bhatia

This book represents the final work of the late Professor C. David Marsden, and serves as the 'clinical Bible' for the management of movement disorders. Extensively illustrated with many original photographs and diagrams of historical significance that have not been published previously, it is an essential reference not just for movement disorder specialists and researchers, but also for clinicians who care for patients with these disorders.
