ODONTOLOGY

DEGREE PROGRAMME

Duration – 5 years.

Degree: Master of Odontology

Qualification: Odontologist

WHY BE AN ODONTOLOGIST?

Odontology is listed among top jobs and together with a rewarding and challenging career you get an opportunity to help people and make them healthier, restoring teeth and making a smile beautiful, one that the patient is happy to show to others.

WHAT WILL YOU STUDY?

During the 1st year there are classes in Cell Biology and Parasitology, Physics, Chemistry, Computer Science, as well as Latin and Lithuanian languages. Human Anatomy, Human Histology and Embryology, Physiology, Oral Microbiology have a prominent place in your curriculum.

WHAT YOU WILL STUDY

From the second year you start learning dentistry: preclinical courses of dental and oral diseases, where clinical skills are being developed in phantom-head laboratories. In the third year the training is based on prevention of Dental Diseases, Prosthetic Odontology, Clinical Cariesology, Oral Surgery, as well as starting to work with the PATIENTS.

During 3rd year you study Pharmacology, Internal diseases, Anesthesiology and Intensive Care.

In 4th year you start studying Paediatric Dentistry, Periodontology and Orthodontics, as well as Radiology, Otorhinolaryngologic Pathology. Clinical practice has a prominent place and clinical skills are developed in 5 specialized dental departments.

During 5th year, while obtaining more advanced clinical skills, you have to do research work and defend Master thesis. Integrated internship is during 10 semester.

STUDENT MOBILITY

There are opportunities to participate in the *ERASMUS+* Academic Student Exchange Program, to acquire study, practice, linguistic and cultural experiences during part-studies at universities in different European countries.

CAREER OPTIONS

After graduation you can start practicing odontology in private or community clinics. Odontologists have opportunities to own their private businesses after graduation or work as general dentists. This profession offers a wide range of clinical, research and academic opportunities at any stage of the career and possibility to shape the future of oral health care. You can continue education by entering PhD or residency studies.

CAREER
OPTIONS
