

# ONE HEALTH: CHALLENGES FOR FOOD SAFETY

## 30 April 2025

# INVITATION

to join the  
2nd International on-line conference  
„ONE HEALTH: CHALLENGES FOR FOOD SAFETY“

The conference is organized by Lithuanian University of Health Sciences, Veterinary academy, Department of Food Safety and Quality and will take place virtually on **30 April 2025, 10 am UTC+02:00** (Helsinki, Kyiv, Riga, Sofia, Tallinn, Vilnius).

Join academics and scientists from the multidisciplinary food-related fields to discuss the most recent advancements and create new partnerships. This year the conference is focused on food safety from technological point of view. The focus topics listed below should be addressed as integral part of food safety context, ensuring protection of consumer health and promotion of sustainable and innovative practices in food production chain:

## FOCUS TOPICS

- Food fermentation
- Valorization of food by-products and waste
- Functional foods
- Toxic and harmful substances in food
- Sustainable food packaging

 This conference is **free of charge**, and there is no registration fee.

 The platform used for the on-line conference is **Teams**.
